EPOCH

HILLSIDE HIGH SCHOOL

HILLSIDE, NEW JERSEY

VOLUME XLII 1966

FOREWORD

An air of mystery encompasses "destiny". Some of us seek to learn our destination in life through the wierd and wily powers of a fortune teller.

The EPOCH shall allow you to ponder the crystal ball with our gentleman of the future. We will gaze into this crystal ball and remember each facet of the high school years behind us. What finer years to view, for the fortune teller must recall a bit of the past before he may predict the future — the "destiny" of his subjects.

Let us, then, search into the crystal ball and reminisce our four high school years; the work, the fun, and the dreams, which are so important in the shaping of our future . . . . our "destiny".

We Dedicate the EPOCH

MRS. JUNE OTTO, nurse and friend, came to Hillside High School in 1932. She served as a flight nurse in the Air Force during World War II, and received the Air Medal and five Bronze Stars. She was discharged with the rank of Captain. With foresight, determination, and ability, Mrs. Otto created a nursing department throughout the entire Hillside School System. Audiometer and Telebinocular examinations, Tubercular tests, Salk Vaccine injections and countless other modern medical innovations were installed within her full and varied medical program. She served as chairman of our H.S. Safety Committee and has instructed in special First Aid classes. The first Future Nurses Club in New Jersey was organized under her direction.

Mrs. Otto takes pride in her colorful window box.

But I *do* have a sore throat moans Cynthia Arches!

A little study leads to better bidding.

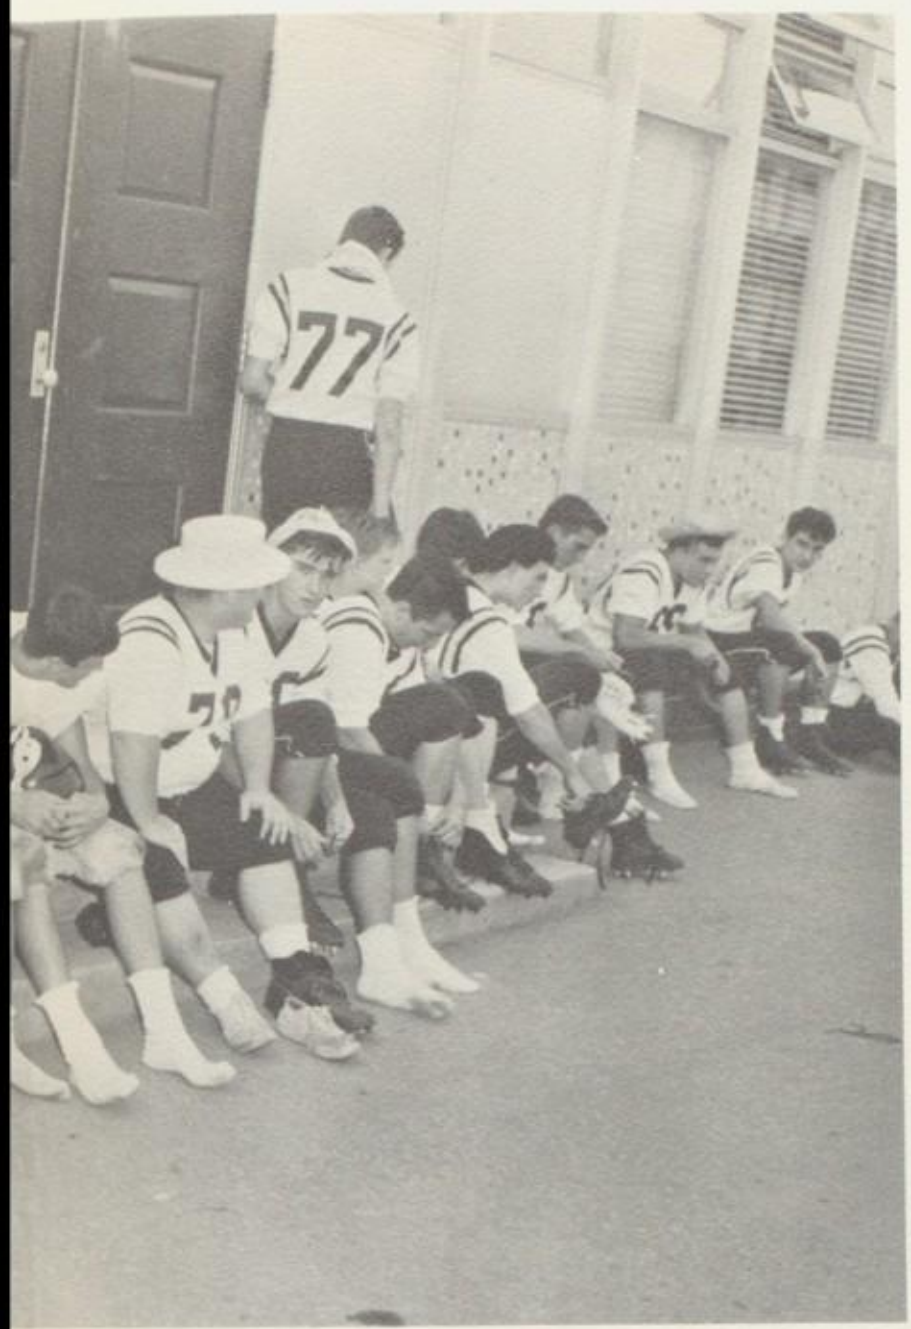
S.G.A. President, Diane Hershkowitz addresses the student body during an assembly.

Hats off to Hillside, and shoes too!

Bob Saboski even sleeps on line to the water fountain!

Aspirin or Bufferin?

FEATURES



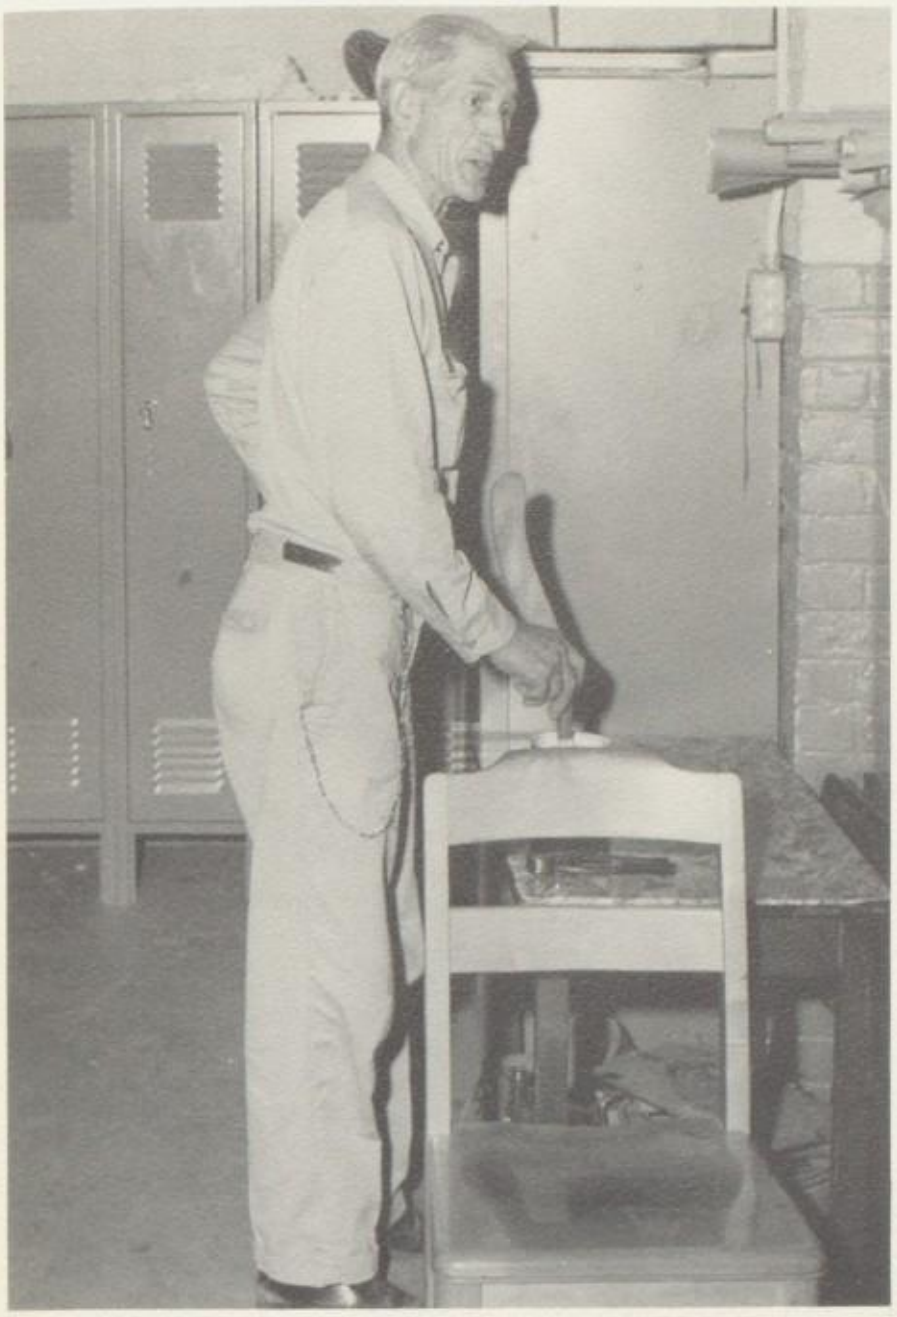
Mrs. Schierer wonders, "What will they think of next?"

"Hey, can I have a lift?" asks Mr. Schaub of Earl Brunner.

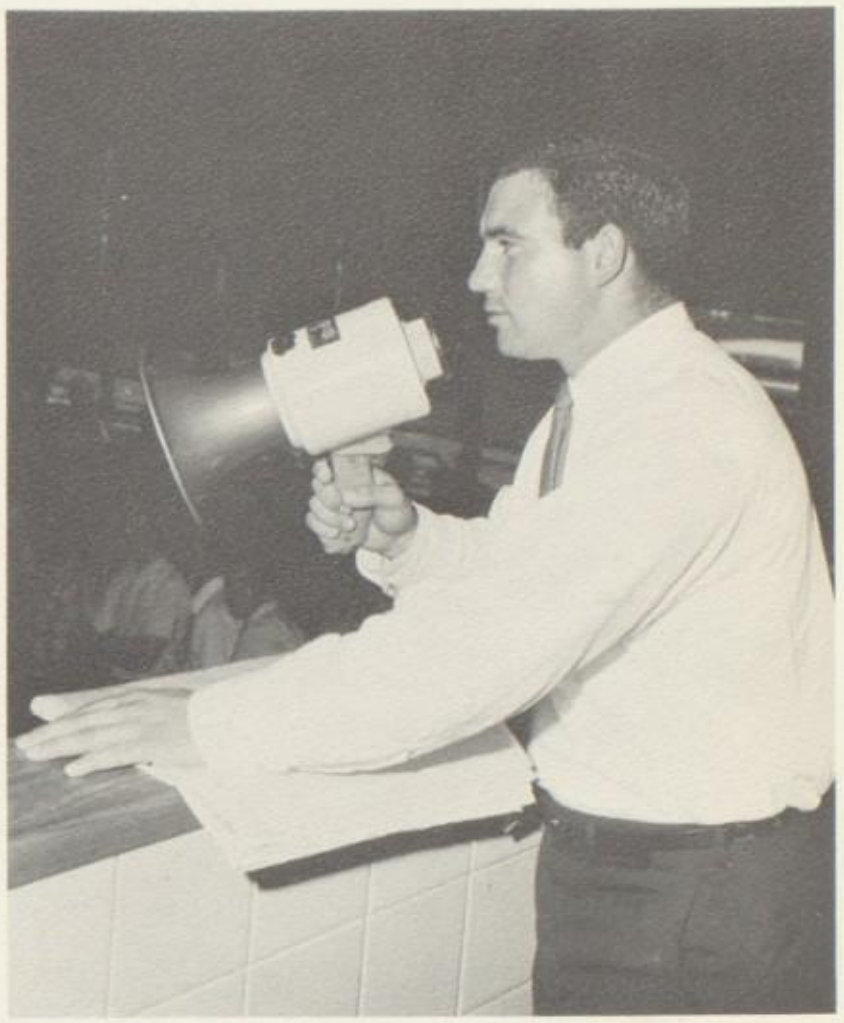
"I know it's here somewhere," moans Jill Sulzman.

Chow time at Hillside High.

"Now how did *she* ever get a letter?" questions Mike Kramer.



"Yes, Miss DeWette, I borrowed a hockey stick.



"O.K. students, line up."

In study hall, thought prevails.

"Actually they're mine!"

FACULTY

As the cloudy haze begins to lift on our crystal ball, our fortune teller reminds us that the faculty of Hillside High School has helped each student to find his future. Insight and dedication of the administrators and instructors has helped every student of Hillside High to become a well rounded individual. New courses in journalism, scientific biology and scientific geometry were introduced into the curriculum to meet the needs and interests of our student body. Automation came to our school this year. Specialized machinery was used to assist in grading, computing attendance, and for scheduling purposes. The main office was also expanded thus creating a parent-conference room and a faculty work room. A different school calender along with a new daily time schedule was put into effect.

Through the constant efforts of our administration and faculty, Hillside High School is continuing to progress and expand in order to prepare us for a successful future in a dynamic world.

FRESHMEN

September and Orientation marked a new phase of life for we the members of the class of '69. We experienced a period of adjustment to the academic and social life of Hillside High School.

Hillside became our challenge, and we met our challenge. Freshmen Basketball and Football Teams compiled a winning record, and the "Honolulu Luau" created an evening of tropical splendor.

We look forward to the years ahead at Hillside, and we anticipate priceless experiences to fill our future.

SOPHOMORES

Feeling complacent and mature, we the Sophomores, started the year with confidence. No longer were we self-conscious of each step we took, and no longer were we apprehensive of those older upperclassmen. As our confidence increased, so did our knowledge. The subjects of Biology and Geometry deepened our understanding and broadened our horizons. Steno was added to the list of the new languages we were to learn. Our dance, "A Salute to Broadway," became the highlight of the year. As Sophomores we felt we had become a part of Hillside High School's "happy family."

As we progress through our education, we shall progress further into maturity. Our destiny awaits us as upperclassmen and in the years to come.

JUNIORS

Upperclassmen—finally we attained the title so long desired. Yet with it came challenges and experiences to be met. Extensive testing programs filled the spring, and we began to look beyond our high school years.

We chuckled at the sight of classmates behind the wheel of a car, and we treasured the high school ring upon our fingers. For "One Sweet Night" we met in Rome, and then our Junior year was over.

Memories of the year gone by will never leave our minds; yet, we look toward our Senior and final high school year with anticipation, excitement, and dreams.

JUNIOR CLASS OFFICERS: seated, Carol Decker, President; Terry Kostes, Vice President; Standing: Eileen Schimel, Treasurer; Judy Coppola, Secretary.

SENIORS

Seniors—how many moments passed before this year was ours? How many memories filled the void of time? We stop for a moment to recall the past. We move on to create the future.

Remember . . . Freshman Orientation. Strange faces occupied a vast school. Upperclassmen led us from elevator to pool to Atlantic City.

Remember . . . Sophomore Dance. We struggled to hang the last of the streamers. Suddenly tragedy befell history—"John F. Kennedy is dead".

Remember . . . Junior Ring Dance. Tissues, subtlely reincarnated flowers, surrounded Juniors proudly sporting their rings.

Remember . . . Senior Year. We plodded from house to house selling our candy and then our ads. We awaited word from schools and employers of our choice. We created Friday caravans leading toward Bradley Beach. We celebrated together our Senior Prom, and we met together for perhaps the final time on "Graduation Day."

Seniors—we will savour our high school memories forever, but now we are seniors no longer. We are greenhorn in the chaotic yet challenging world that stretches before us. We move on to create our destiny.

Hillside High Alma Mater

Hillside High our Alma Mater,
Praises do we sing
While our hearts with joyous
exultation ring.
And when the glowing embers die,
Our hearts will beat for Hillside High,
Alma Mater voices sing - joyously for thee.

Joyously we gather now,
In a true devotion,
To our Alma Mater which we love so well.
We ask a blessing from above,
Bestowed upon the school we love,
Alma Mater blessings on thy walls so firm
and true.

Faces which we love so well
Shall slowly fade away.
Moments of our youthful pleasure shall
slowly wane.
But time and storm shall never harm thee,
School which shall live in every memory,
Hillside High our Alma Mater —
Brave and strong and true.

ACTIVITIES

Beyond the bounds of an academic world lies a society of pressures and competition—a world of reality. Thus, education must be more than a classroom situation. Hillside High School encourages the student to pursue a study or an interest further than a fifty minute class, for at two fifty nine the school day has far from ended.

Publications, sport events, and countless clubs touch upon an interest of every individual. Students lead, cooperate, and achieve. They study, plan, and create. The world that awaits them demands more than a textbook, and that world of reality holds their future—their "destiny".

DANCES

CERTAIN SEASONS and events cry for festivities. Hillside High School sees that they become a reality. Each class adds an affair to the social calendar, and the S.G.A. sponsors a Letterman's and Valentine's Day Dance. Seniors do not allow the Christmas season to pass the High School unnoticed, for they create the Christmas Dance. High school life extends well beyond the academic day for Hillside High School students.

A dance that will never lose popularity.

May I have this dance?

And the band played on.

You put your left foot in, you put your left foot out. . . .

TALENT SHOW

ABILITIES OF MANY Hillside students extend beyond the acedemic realm. Mr. Walter Behringer and Mrs. Judith Parsonnet, Advisors, co-ordinated the variety show giving talented students an opportunity to perform upon the stage. Songs, dances, music, and acrobatics spiced a very professional program.

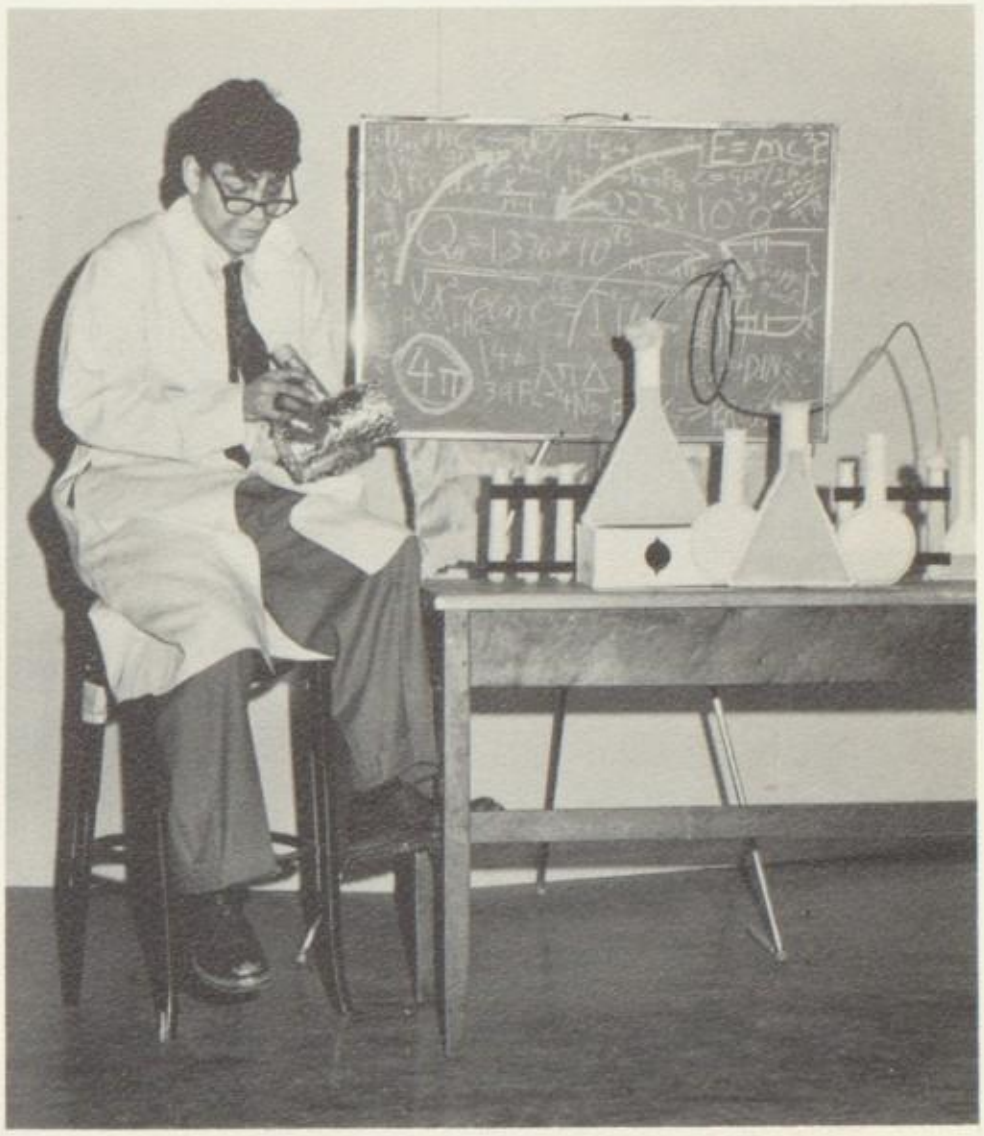
Mrs. Joan M. Maher, Faculty Advisor

Gloriana descends from her throne to meet with Tully.



"Arm the Q-bomb carefully, professor."

"Grand Fenwick has just declared war!"

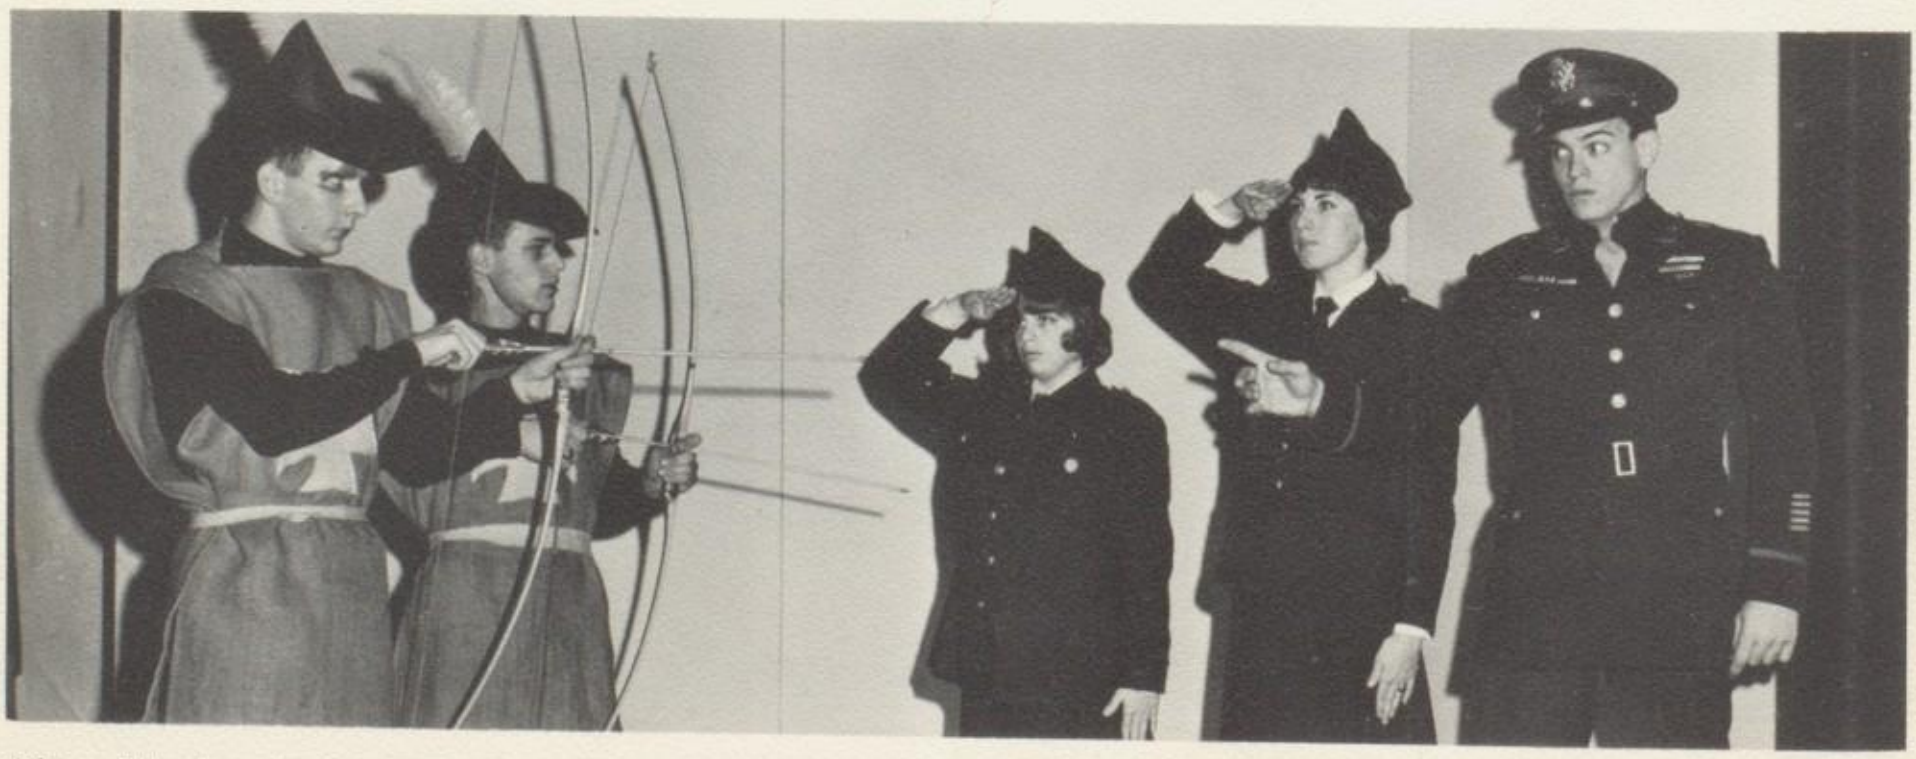
Stage and Lighting—a vital part of the production.

Senior Play

"Ain't he just the livin' end," sighs peasant Ann.

"So you see, children. . . ."

Her majesty, Princess Gloriana."



"*That* could be destructive!"

"Una dolce notte in Rome," came to Hillside High School amid ivy-bedecked columns and graceful streamers. Carol Decker, president, and Miss Ascoli and Mr. Leta, class advisors, watched as Juniors made their traditional walk through the centerpiece and presented them with their own school rings. Rome's magic charm will enhance Junior memories forever.

"Put up your dukes."

Junior Ring Dance

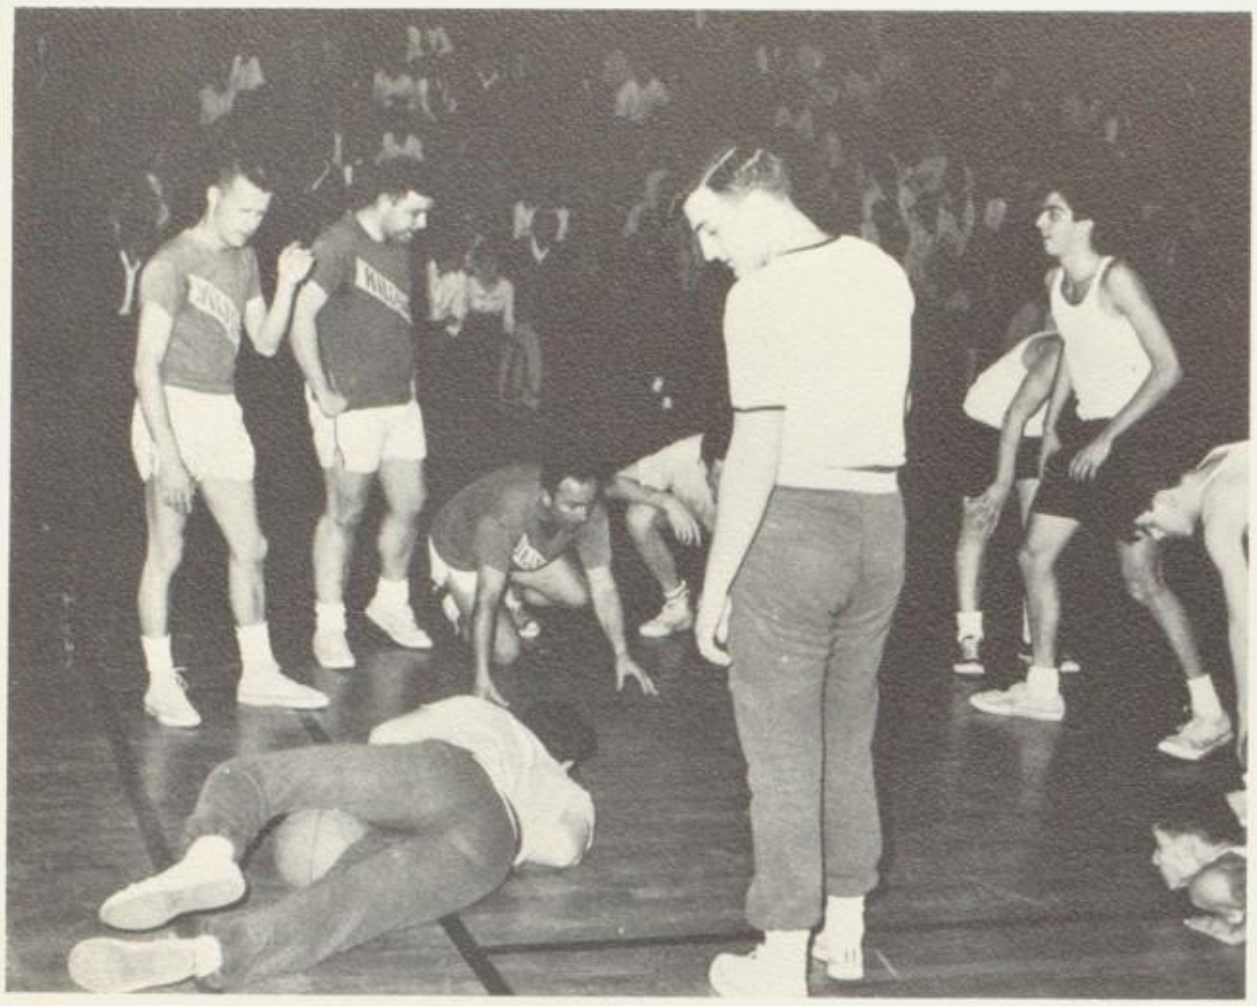
Flowers are the way to a girl's heart.

The traditional walk through the ring.

Carol Decker, president, receives her school ring from Miss Ascoli, advisor.

That's one way to keep him quiet.

Senior Faculty Game

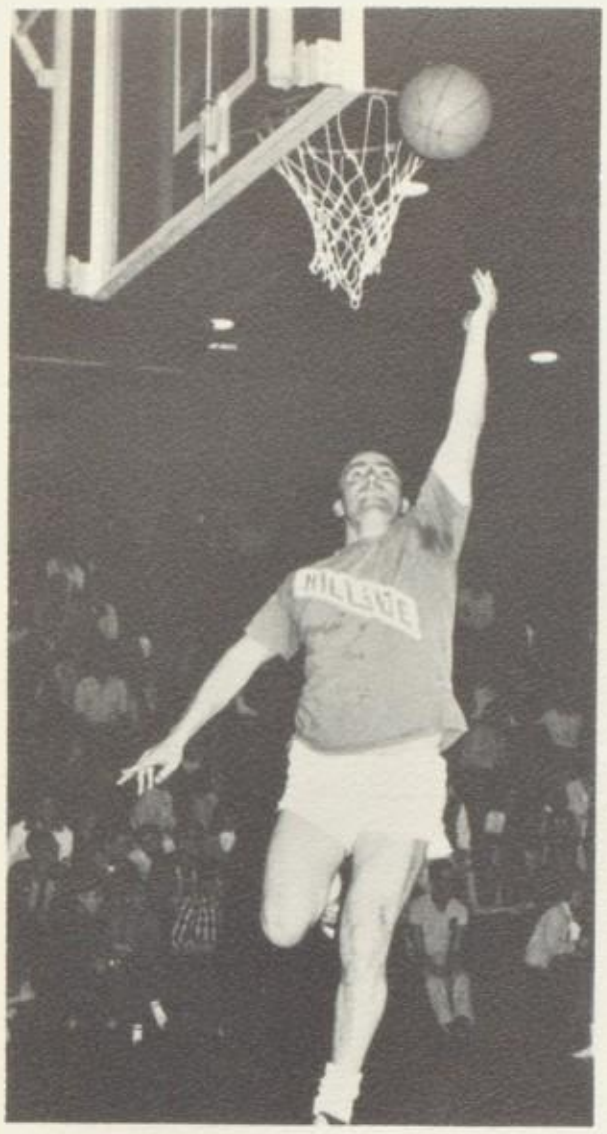


Has anyone seen that contact lens?

BASKETBALL ENTERED HILLSIDE'S GYM, but it wasn't basketball season. One glance at the teams hinted at more irregular circumstances, for a homely group of girls ran out upon the court. Why, of course, it was the faculty disguised and prepared to challenge seniors in a tough game of ball. Competition did not end here, for lady faculty members cheered for their men while senior cheerleaders supported the senior boys. Faculty topped the students, but the victory was hard to achieve.

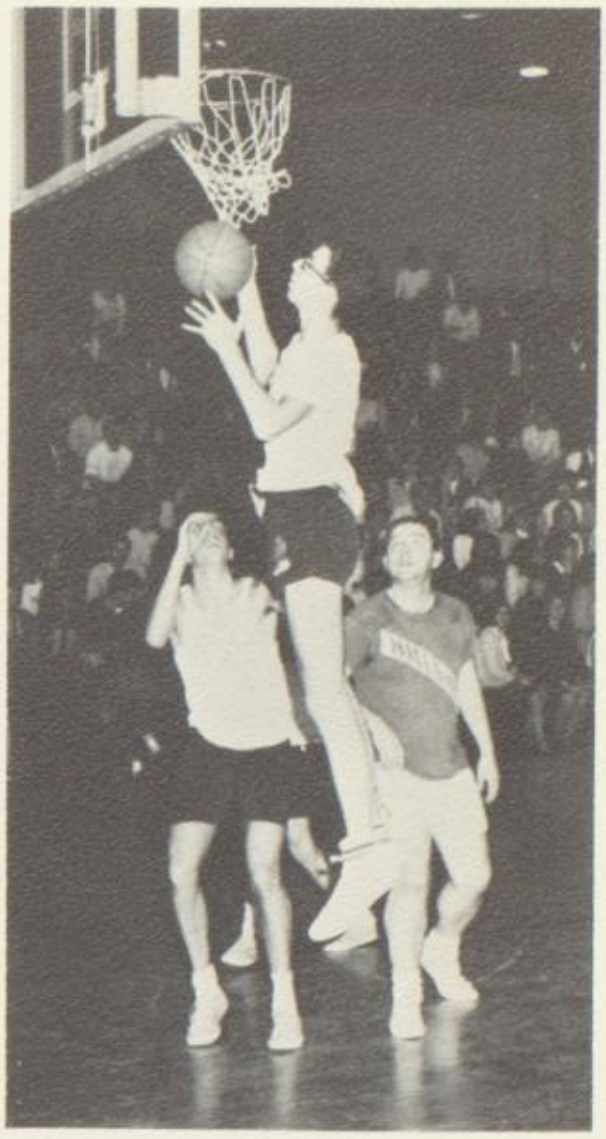
"Miss that basket Senior, or I'll fix you up for the prom."

38 - 24 - 38?

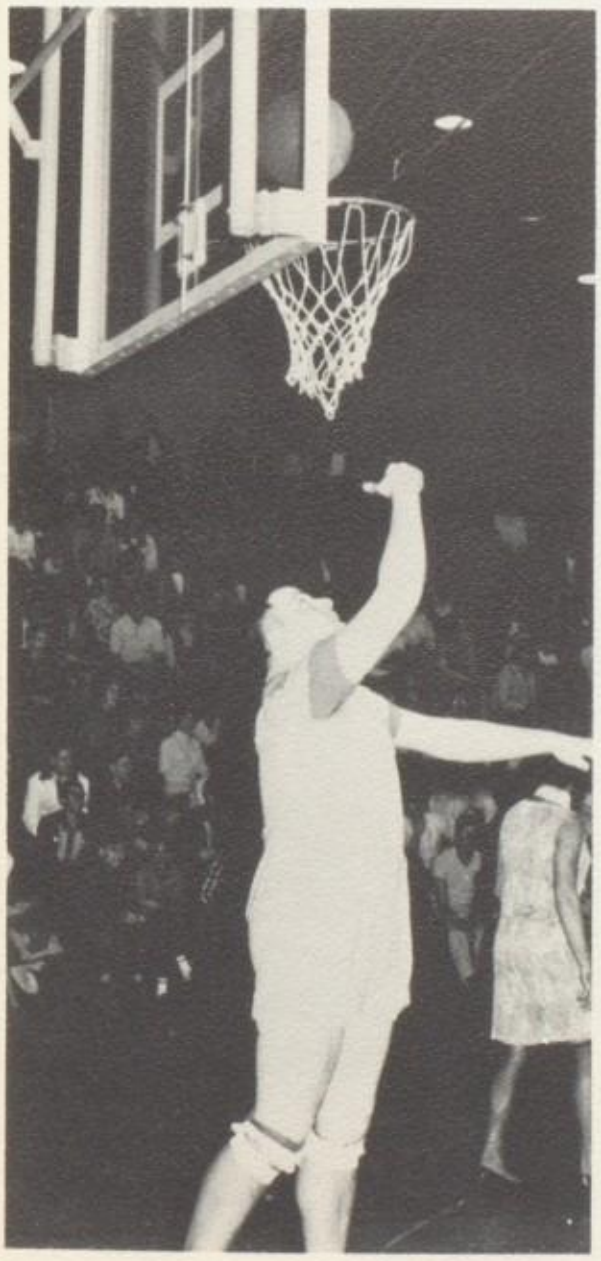


Almost!

Every class has its clown.



Dennis Mark scores for the Seniors.



Mr. Bianchi daintily scores for Faculty.

It must have been a beautiful baby.

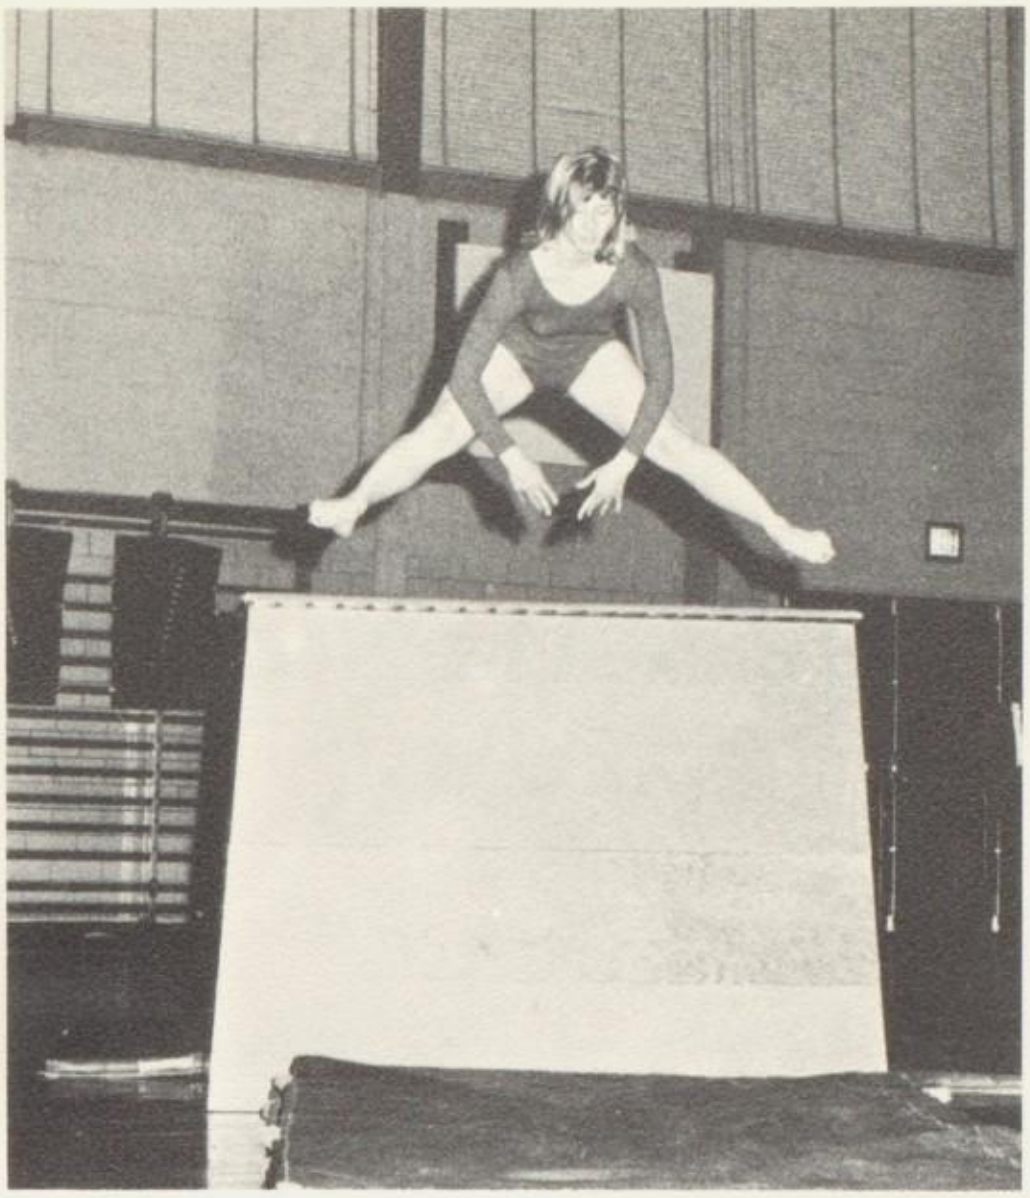
Mr. Behringer dons his frilly best for the occasion while teammates jealously looks on.

Girls of Hillside High perform a "Topcoat" routine.

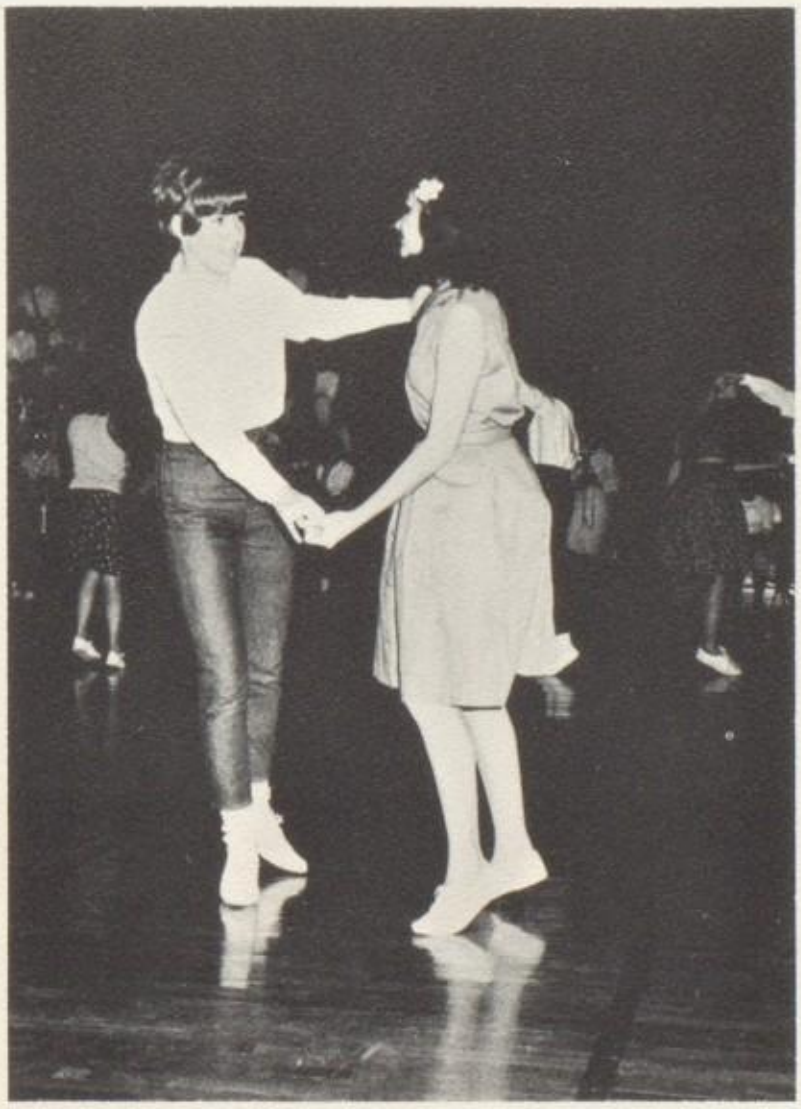
Girls' Gym Show – "Spring Into Fitness"

A synchronized jumprope routine to "The Syncopated Clock."

"Spring into fitness—and that's just what they did!



Vaulting the Swedish box looks difficult—and it is.



Senior girls display their skills in folk dance.

A perfect finish to a perfect routine on the balance beam.

BUSINESS AND ADVERTISING

The *Epoch* has been made possible for the students and faculty of Hillside High School only through the patronage of the many businesses and individuals throughout the town who have contributed generously during the year. In the course of the creation of this very special publication, the *Epoch* staff has exhausted every effort in establishing this fund. We wish to sincerely thank all contributors, and we ask that all readers kindly patronize those who have advertised in the pages following.

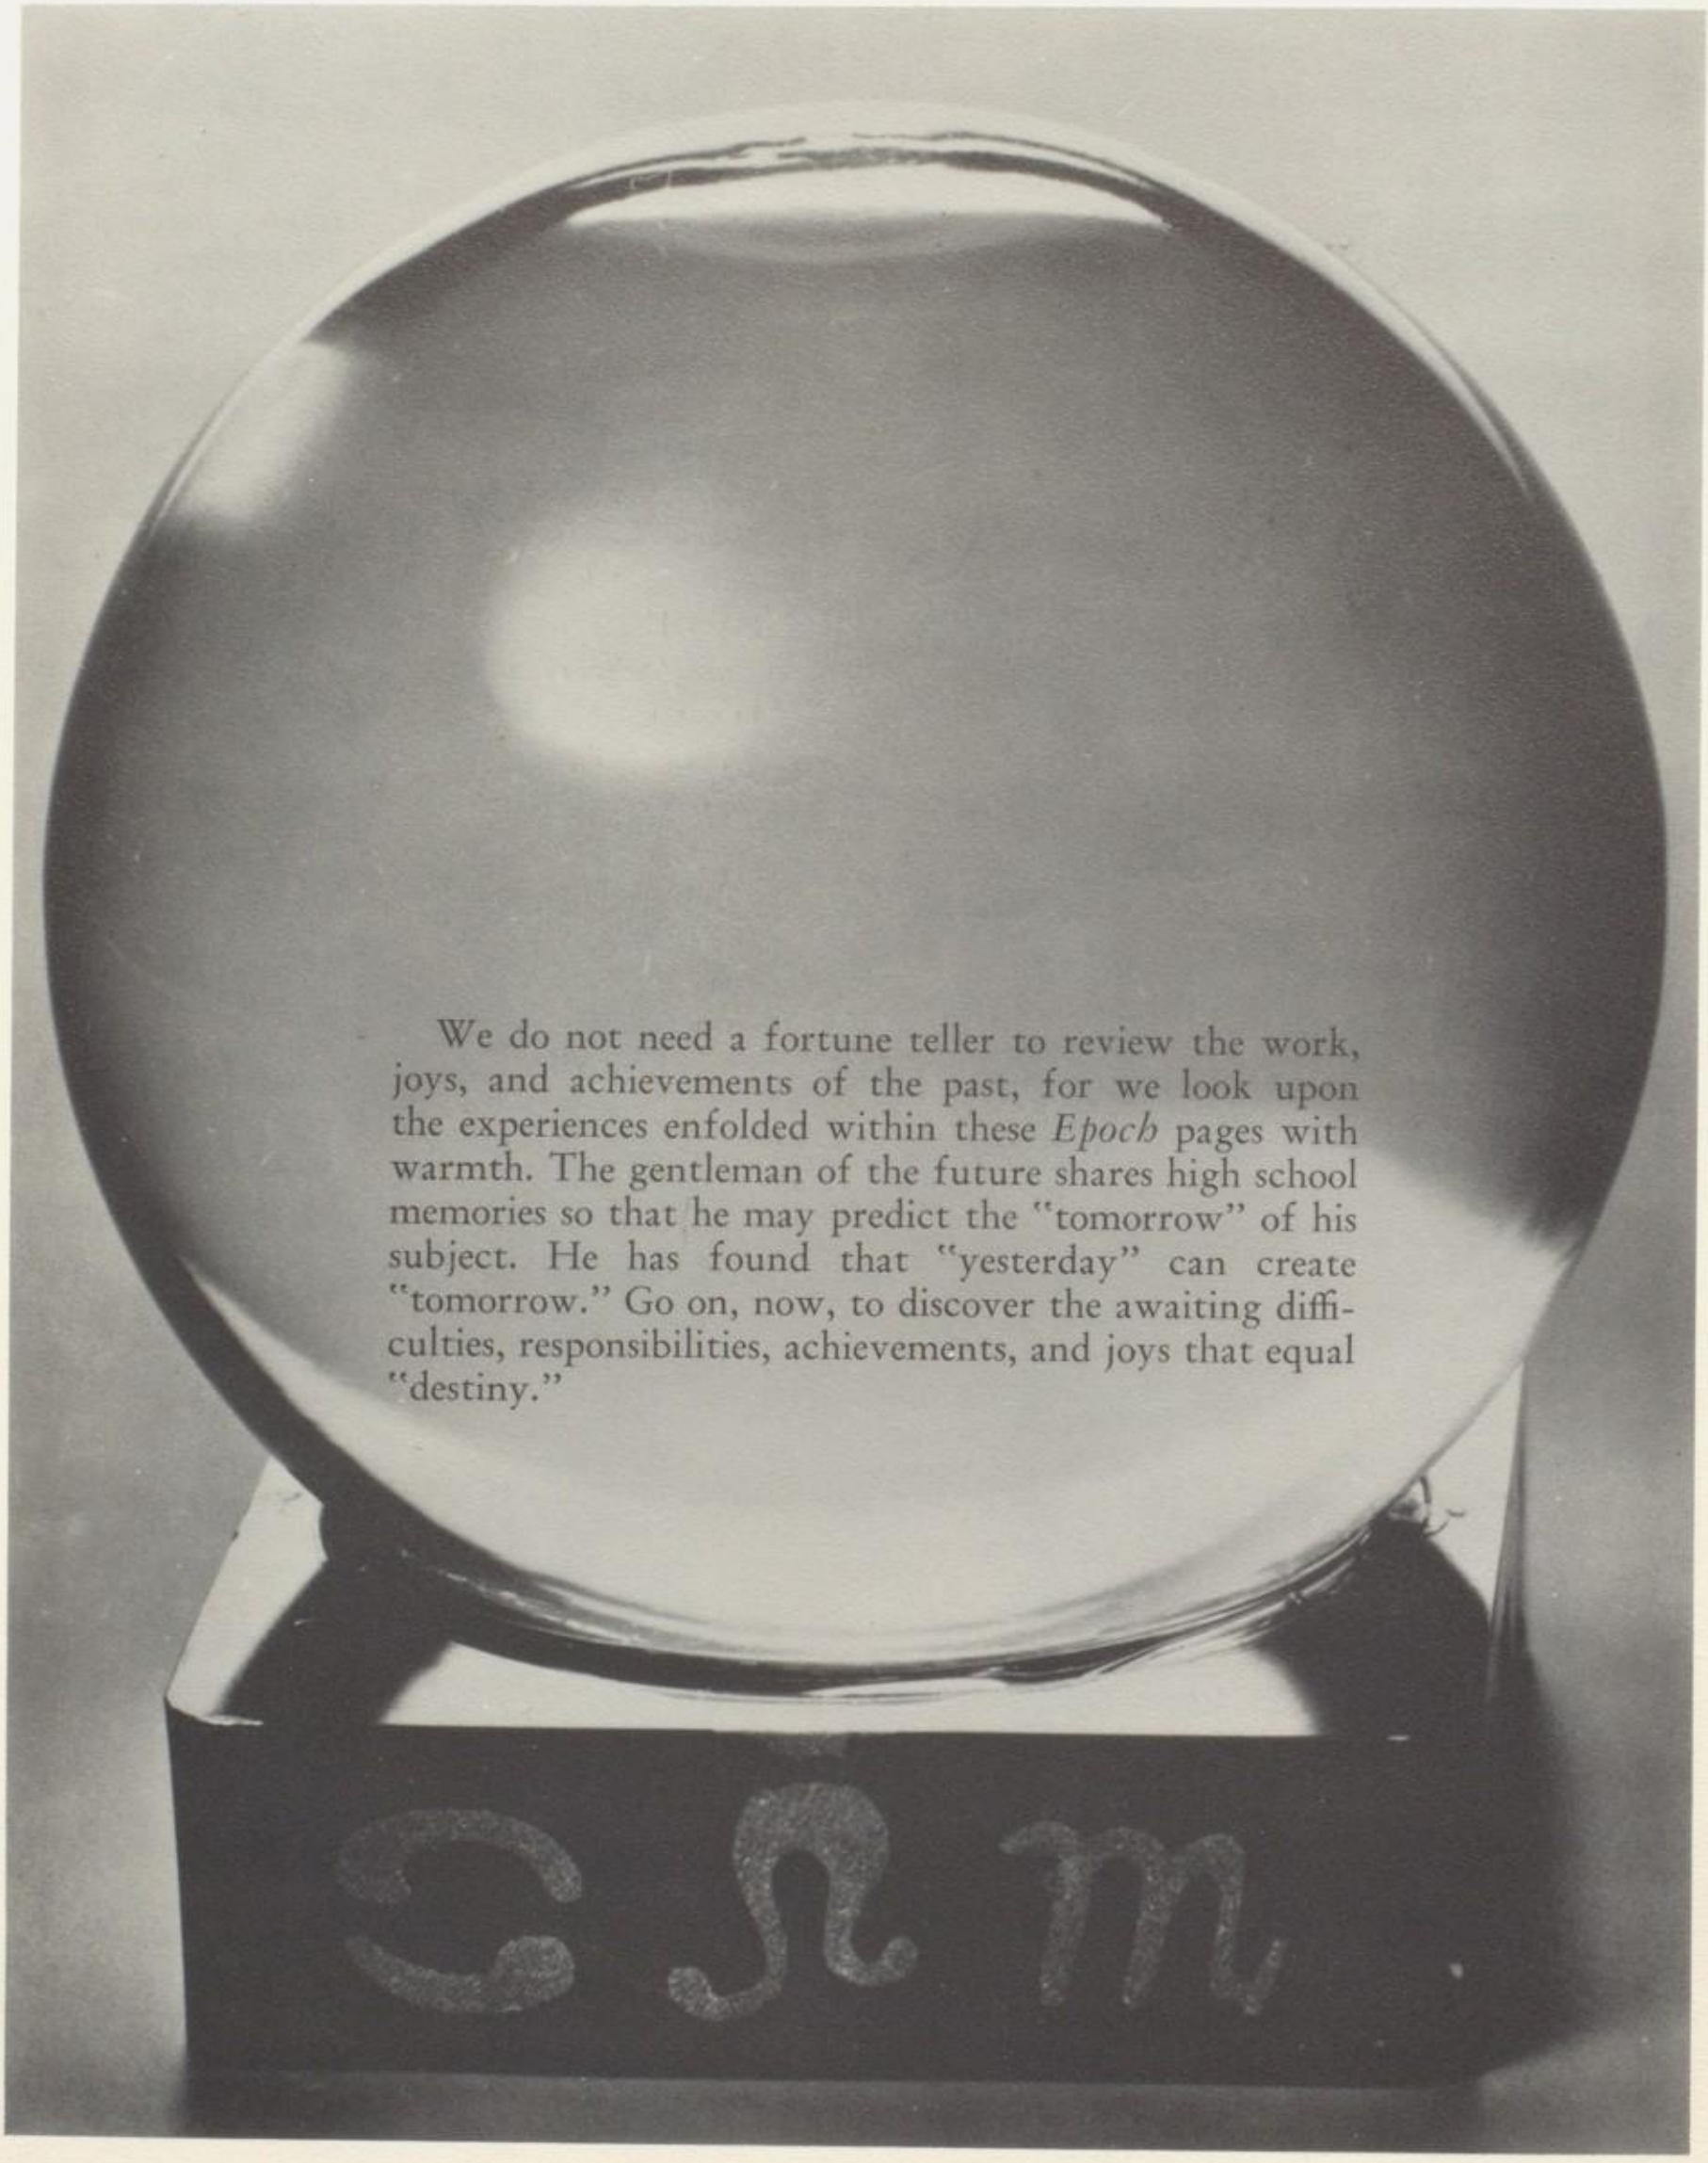
Afterword



We do not need a fortune teller to review the work, joys, and achievements of the past, for we look upon the experiences enfolded within these *Epoch* pages with warmth. The gentleman of the future shares high school memories so that he may predict the "tomorrow" of his subject. He has found that "yesterday" can create "tomorrow." Go on, now, to discover the awaiting difficulties, responsibilities, achievements, and joys that equal "destiny."
